

HIMACS Intense Ultra

Work with Power.

 LX Hausys

HI·MACS

Advanced Technology. Always.

LX Hausys is now introducing HIMACS Intense Ultra,
a revolution for the Solid Surface market which
opens new possibilities for surface design.

The new formulation combines
the best of two worlds:

Intense Colour Technology

and

Ultra-Thermoforming.

HI·MACS

NEW HIMACS Intense Ultra Features and Benefits:

Intense Dark Colour Technology

Advanced Technology

Improved colour consistency

Stronger surface with better durability

Improved scratch concealment & resistance

Ultra-Thermoforming Technology

Ultra-Thermoforming capabilities

Less whitening effect after thermoforming

INTENSE DARK COLOUR TECHNOLOGY

Advanced Technology

Black
S022

Intense Ultra Black
S922

Dark colours become more “intense”, darker and also more resistant, with less visible scratches.

The new formulation allows for colour consistency during and after fabrication, maintaining the dark colour when worked, producing less sanding dust and leaving fewer sanding marks on the surface and edges.

HI·MACS

Improved colour at cutting surfaces

Improved Colour

- ✓ Better joint workability with improved colour on cutting surfaces

Black (S022)

Intense Ultra Black (S922U)

Sanding scratch and surface finish improvement

Stronger Surface

- ✓ Better sanding workability with less sanding marks.
- ✓ Reduction in operational difficulties and time

Less visible scratches

Improved Scratch
Concealment

**HIMACS Intense
Ultra Black S922U**

* The scratch's colour is darker than standard black (S022) and this improves scratch concealment.

HI·MACS

ULTRA-THERMOFORMING TECHNOLOGY

■ Ultra-Thermoforming

The new HIMACS Intense Ultra, also has excellent thermoforming capabilities.

This new formula allows the material to reach a very small internal radius, up to 6mm, with almost no whitening effect even when using dark colours.

Sharp curves and dramatic designs with small radii, in darker tones, are now made possible with HIMACS.

HI·MACS

Ultra-Thermoforming capabilities

- ✓ Less whitening effect after Thermoforming, more possibilities for curved shapes
- ✓ Internal radius 6 mm

Ultra-Thermoforming capabilities

- ✓ Thermoforming capability more than doubled - from 30% for standard sheets up to 70% with the new HIMACS Intense Ultra*.

* For more detailed technical information and data, please refer to the HIMACS Intense Ultra Technical Data Sheet.

Format & Availability: 12,9,6 mm x 760 mm x 3.680 mm / HIMACS Intense Ultra available from warehouse, HIMACS Intense only available for drop shipment.

HI·MACS

15 years warranty

Quality

Quality pays for itself: With its 15 year limited installation warranty, HIMACS offers the longest warranty of any Solid Surface manufacturer on the market.

Loyalty is rewarded with a 15-year material-warranty* for material fabricated and installed by a member of the HIMACS Quality Club.

End users also benefit from an extremely high standard for service quality, and can rest assured in the durability of their HIMACS product.

* Please refer to our website for more detailed information on our warranty conditions.

HI·MACS

HIMACS. Because Quality Wins.
